2

Classic-Craft® Premium Entryways

An inspired blend of
precision engineering
and architectural character.

Design your dream entryway.

A premium entryway that's truly unique and uncompromising in every detail. One that blends precision-engineered features with architecturally correct details to produce an entryway that performs as exceptionally as it looks – instilling confidence and peace of mind.

Classic-Craft's five unique collections offer authentic details, plus an exclusive array of beautiful decorative glass designs that can be customized to complement a home's style and transform the entryway into a true work of art.

Everything about a Classic-Craft entryway looks, feels and sounds like an authentic solid wood door. Plus, durable, energy-efficient, low-maintenance features make it a smart long-term investment. And it's rated a *Consumers Digest* Best Buy.

3

Experience the difference.

Perhaps best of all, Classic-Craft is from Therma-Tru, the preferred brand among builders and remodelers.* Therma-Tru introduced the world to fiberglass doors and continues to make products that are better and more beautiful every year, meeting Therma-Tru's high standards.

In the pages that follow, you'll discover just how unique the Classic-Craft collections are to the industry. And how much more it can offer you in making your dream entryway a reality.

Authentic in every way.
Beautiful beyond compare.

Here's a premium entryway that can truly express your personal style. With our Classic-Craft collections, you can customize your entryway with a choice of four wood grains or a smooth surface that you can easily stain or paint for virtually unlimited color options both inside and out. And every door offers architecturally correct proportions and intricate decorative glass options, with each detail evoking a sense of handcrafted elegance.

Compare for yourself.

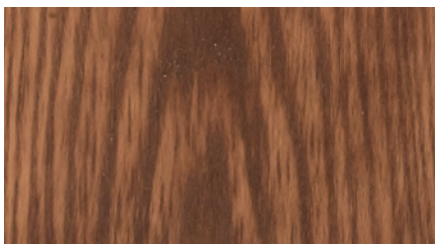

Premium – right down to the edge.

A solid hardwood square edge delivers a genuine wood appearance.

Standard fiberglass bullnose edge.

The bullnose profile, typical of other fiberglass doors, detracts from the authentic wood look.

The look of real wood.

Realistic wood grains that are virtually indistinguishable from high-grade wood doors, thanks to Therma-Tru's AccuGrain[®] technology.

Details that define a custom door.

Crisp, handcrafted elegance creates embossments that are deeper than standard fiberglass doors.

Architecturally correct for true classic beauty. Doors designed to be architecturally correct, with proportions modeled after classic architectural principles, to create a more premium entryway.

Up to 25% wider panels*

Classic-Craft. Premium Door

Standard Fiberglass Door

*Compared to other standard fiberglass doors.

Premium performance in every detail.

Knock on it, open and close it, and you'll appreciate how a Classic-Craft entryway simply makes a home feel strong, safe and secure. There's no mistaking its quality construction and outstanding performance. Every Classic-Craft premium entryway is crafted from the finest materials to accurately replicate the feel and integrity of a custom wood door, with each detail refined to ensure total peace of mind.

Heavier Construction

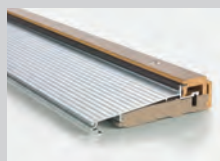

Classic-Craft products provide the heft and protection of custom wood doors. Incorporating components like an engineered lumber lockstile that runs the entire length of the door, they offer construction that's 20% heavier than other standard fiberglass doors – providing excellent stability and security.

Feel the difference.

A complete door system.

More than beautiful doors and glass; a complete door system includes the components used to assemble it. We manufacture or specify every aspect of a complete door system.

The Therma-Tru® genuine components shown here are our premium options for long-lasting durability. Check with your Therma-Tru seller for availability.

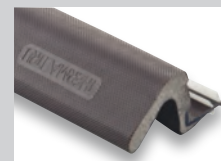

Composite Adjustable Sills (Inswing Only)
Resist rotting and insects, and adjust to help maintain a tight seal over time.

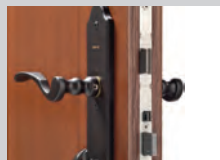

Dual-Bulb / Dual-Fin Bottom Sweeps (Inswing Only)
Help maintain tight contact with adjustable sill caps and create added barriers against moisture.

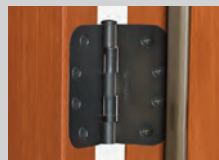

7-Shape Corner Seal Pads (Inswing Only)
Create an air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

Removable Weatherstrip
Compresses when the door is closed and springs back when it is open for long-lasting sealing power.

Multi-Point Locking Systems
Increased engagement enhances stability and your sense of security.

Ball-Bearing Hinges
Ball bearings protect each hinge pivot, or "knuckle", offering added support and stability.

Frame Components
Complete the door system with rot-resistant brickmould, jambs, mullions and coil cladding manufactured to our specifications.

Therma-Tru fiberglass doors are available with our exclusive Tru-Defense® system, which integrates specific components engineered and tested to deliver outstanding protection in all kinds of weather conditions. For details, visit www.thermatru.com/trudefense.*

1 Enhanced Weather Resistance

No more worries about rotting, warping or twisting. Classic-Craft premium entryways are tested and designed to resist extreme weather conditions and the damaging effects of moisture. Both the top and bottom of the door are protected by composite rails for a longer-lasting entryway.

2 Solid Security

Classic-Craft premium entryways feel solid and close with authority. A 4-1/8" wide beam of engineered lumber runs from the top to the bottom of the locking side of the door to add mass and rigidity, giving the door weight and a natural wood feel.

3 Excellent Durability

Built to stand up to the elements and years of wear, Classic-Craft's fiberglass skins are thicker than other standard fiberglass doors to provide added durability and better long-term performance.

4 Higher R-Values

Classic-Craft premium entryways contribute to an energy-efficient home. A polyurethane foam core provides up to four times the insulating R-Value of wood.**

5 Edge-to-Edge Moisture Protection

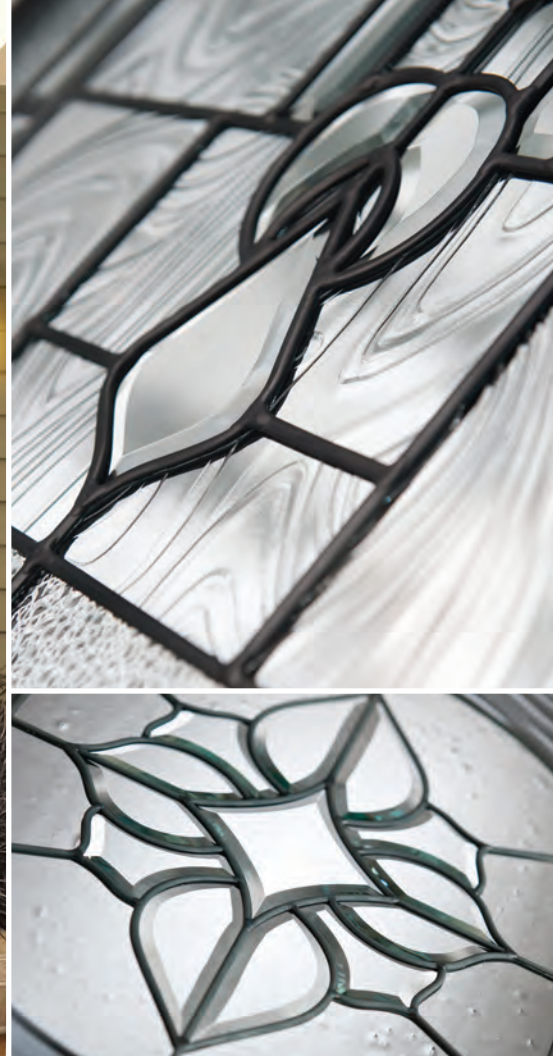

Resist moisture at every turn – and along every edge. Classic-Craft premium entryways have hardwood and composite edges that help prevent moisture penetration.

*Therma-Tru is not responsible for the assembly and installation of the components of Tru-Defense door systems.

**Comparison of fiberglass to wood doors (both without glass).

Top Right: Classic-Craft Canvas Collection, Cambridge Glass, Doors – CCV805026, Sidelites – CCV8106SL

Stunning, intricate glass. Beautiful in every way.

More than 10%
wider glass*

**Classic-Craft
Premium Glass**

Standard Glass

With 13 exclusive decorative glass families and multiple sidelite and transom configurations, you'll find the ideal style to enhance any home when you select a Classic-Craft premium entryway. Close attention to detail produces intricate, truly distinctive designs you won't find anywhere else.

- Classic-Craft glass is more than 10% wider*, welcoming more light into the home and creating a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- All Classic-Craft clear glass options are Low-E, providing long-term energy efficiency.
- All decorative and privacy glass products feature triple-pane construction that helps reduce outside noise while increasing energy efficiency.
- Any Therma-Tru® glass added to a Classic-Craft entryway is covered by the same outstanding lifetime limited warranty.

*Compared to other standard fiberglass doors.

Top Left: Classic-Craft American Style Collection, Villager Glass with SDLs, Door – CCA232, Sidelites – CCA3402SL, Transom – VGRT, Dentil Shelf

Realize the confidence that comes from a smart investment.

**Where there are dream homes,
there are Classic-Craft® premium entryways.**

Everything about Classic-Craft has been designed to create a premium, elegant entryway that provides exceptional strength, efficiency and long-term performance; so you can feel confident that Classic-Craft is a smart investment for years to come.

Hundreds of Classic-Craft entryways are ENERGY STAR® qualified, contributing to an energy-efficient home. And it's rated a *Consumers Digest* Best Buy, for its exceptional warranty, quality of materials and construction, and resemblance to a real wood door. Plus, because Classic-Craft entryways are made of durable fiberglass, they're weather-resistant and low-maintenance – ideal for today's active lifestyles.

9

**Classic-Craft
sidelites go
beyond ordinary.**

Classic-Craft clear glass sidelites feature energy-efficient Low-E glass, and all Classic-Craft sidelites are flush-glazed. This process integrates the glass during the manufacturing process, eliminating the need for a separate lite frame. The result: a truly seamless, consistent appearance and a high-performance weather seal.

We place a lot of emphasis on achieving the highest level of customer satisfaction.

That's why all Classic-Craft entryways carry a lifetime limited warranty. Should any issues arise during or after the installation of a Classic-Craft premium entryway, we'll address them in a professional, timely manner.

**Hundreds of Classic-Craft entryways are
ENERGY STAR qualified, contributing
to an energy-efficient home.**

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and ENERGY STAR qualified products.

Let Classic-Craft bring your entryway to life.

Join the millions of satisfied homeowners and building professionals who have already realized the confidence and peace of mind that comes with a Classic-Craft® premium entryway. We want you to be inspired by everything Classic-Craft has to offer and find the best choice for your home. Here are some considerations to keep in mind:

- What is the size of the entryway?
- Which direction does your home face?
- How much light or privacy do you want in your foyer?
- What is your home’s architectural style?
- What is the personal style of your home’s interior?

Door Collections
